

May 2005

Attached is a list of the Harmonized Tariff Schedule (HTS) headings provided by US Customs and Border Protection (CBP) that have been identified as possibly containing FDA-regulated products. The following flags are used:

- FD0 - Indicates that FDA has determined the article, even though subject to FDA's laws and regulations, is acceptable for CBP release without further presentation of prior notice or other entry information to FDA.
- FD1 - Indicates that the article may be subject to FDA jurisdiction, including FDA review under 801(a) of the FD&C Act. For products not subject to FDA jurisdiction, a filer can "Disclaim" product from FDA notification requirements.
- FD2 - Indicates that the article is under FDA jurisdiction and review of entry information by FDA under section 801(a) will take place. However, the article is not "food" for which prior notice information is required.
- FD3 - Indicates that the article may be subject to prior notice under section 801(m) of the FD&C Act and 21 CFR Part1, subpart I. , e.g., the article has both food and non-food uses.
- FD4 - Indicates that the article is "food" for which prior notice is required under section 801(m) of the FD&C Act and 21 CFR Part1, subpart I.

These flags are informational in nature, and do not supersede any provision of law and/or regulations. In particular, the absence of an FD flag does not relieve the importer of the responsibility of notifying FDA of the entry of any product which is subject to the provisions of the Food Drug & Cosmetic Act and/or other related Acts or regulations.

Please make copies of this printout for the necessary personnel in your district, as well as for any brokers/importers who request it. Questions and suggestions for changes in flag status can be referred to Ted Poplawski at (301) 443-6553.
